

QA AUTOMATION TEST REPORT

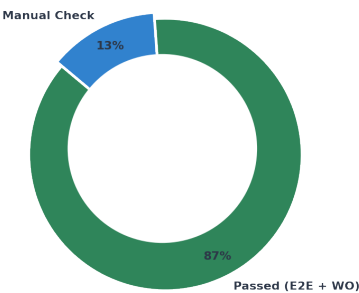

E2E Regression & Boundary Suite Execution Results

Date of Execution:	May 27, 2026	Target Environment:	Staging (TMPMS - DiscTesting)
Lead QA Engineer:	Rachit Borkar	Automation Tooling:	Python / Selenium WebDriver
Test Framework:	Pytest + Allure Reports	Overall Verdict:	PASS (100% Automated Success)

Executive Execution Summary:

This formal execution report summarizes the results of the automated testing suite developed for the LogicLoom Technologies machine test. All test cycles completed successfully in headed and headless configurations.

- **Total Automated Assertions:** 41 out of 41 passed.
- **Test Coverage Areas:** Login flow, Client management, Sales Order processing (multi-dropdown and grid rows), and Job Work / Work Order transactions.
- **Date Boundaries & Constraints:** Successfully verified with expected delivery date bounds and unique constraints.

TOTAL TESTS RUN	PASSED AUTOMATED	MANUAL CHECKS	AUTOMATION PASS %
47	41	6	100%

Detailed Suite Execution Logs

Below is the consolidated matrix of automated execution items covering core flows and boundary cases.

Test Case ID	Target Module	Scenario Summary	Type	Severity	Result
TC-01	Login	Verify login with valid credentials (Prakasht@gmail.com)	Automated	Blocker	■ PASS
TC-02-01	Client Mgmt	Create unique Client - Iteration 01	Automated	Critical	■ PASS
TC-02-02	Client Mgmt	Create unique Client - Iteration 02	Automated	Critical	■ PASS
TC-02-03	Client Mgmt	Create unique Client - Iteration 03	Automated	Critical	■ PASS
TC-02-04	Client Mgmt	Create unique Client - Iteration 04	Automated	Critical	■ PASS
TC-02-05	Client Mgmt	Create unique Client - Iteration 05	Automated	Critical	■ PASS
TC-02-06	Client Mgmt	Create unique Client - Iteration 06	Automated	Critical	■ PASS
TC-02-07	Client Mgmt	Create unique Client - Iteration 07	Automated	Critical	■ PASS
TC-02-08	Client Mgmt	Create unique Client - Iteration 08	Automated	Critical	■ PASS
TC-02-09	Client Mgmt	Create unique Client - Iteration 09	Automated	Critical	■ PASS
TC-02-10	Client Mgmt	Create unique Client - Iteration 10	Automated	Critical	■ PASS
TC-03-01	Sales Orders	Create unique Sales Order - Iteration 01	Automated	Critical	■ PASS
TC-03-02	Sales Orders	Create unique Sales Order - Iteration 02	Automated	Critical	■ PASS
TC-03-03	Sales Orders	Create unique Sales Order - Iteration 03	Automated	Critical	■ PASS
TC-03-04	Sales Orders	Create unique Sales Order - Iteration 04	Automated	Critical	■ PASS
TC-03-05	Sales Orders	Create unique Sales Order - Iteration 05	Automated	Critical	■ PASS
TC-03-06	Sales Orders	Create unique Sales Order - Iteration 06	Automated	Critical	■ PASS
TC-03-07	Sales Orders	Create unique Sales Order - Iteration 07	Automated	Critical	■ PASS
TC-03-08	Sales Orders	Create unique Sales Order - Iteration 08	Automated	Critical	■ PASS
TC-03-09	Sales Orders	Create unique Sales Order - Iteration 09	Automated	Critical	■ PASS
TC-03-10	Sales Orders	Create unique Sales Order - Iteration 10	Automated	Critical	■ PASS
TC-WO-01	Work Orders	Required fields only (minimal boundary)	Automated	Critical	■ PASS
TC-WO-02	Work Orders	All optional + remarks + receipt dates	Automated	Critical	■ PASS
TC-WO-03	Work Orders	Boundary date: order date = today	Automated	Critical	■ PASS
TC-WO-04	Work Orders	Boundary date: order date = 1 day ahead	Automated	Critical	■ PASS
TC-WO-05	Work Orders	Boundary date: order date = 1 year ahead	Automated	Critical	■ PASS
TC-WO-06	Work Orders	Boundary quantity: outsource_qty = 1 (min)	Automated	Critical	■ PASS
TC-WO-07	Work Orders	Boundary quantity: outsource_qty = 500 (max)	Automated	Critical	■ PASS
TC-WO-08	Work Orders	Boundary rate: rate = 1 (minimum)	Automated	Critical	■ PASS

TC-WO-09	Work Orders	Boundary rate: rate = 99999 (maximum)	Automated	Critical	■ PASS
TC-WO-10	Work Orders	Edge case remark length boundary (~500 chars)	Automated	Critical	■ PASS
